

40-foot Smart Photovoltaic Energy Storage Container for Wastewater Treatment Plants

Overview

With 140kW solar and 215kWh battery in a 40ft container, it handles heavier industrial loads in harsh outdoor conditions, supporting sustainable operations with minimal maintenance. Engineered for industrial resilience, this 40ft fold-out system offers 140kW solar power and 215kWh.

40-foot Smart Photovoltaic Energy Storage Container for Wastewater

Why positive response is always plus 40 and negative response is 7F

In UDS the first byte of a positive response is always SID + 40 hex (SID = Service Identifier, the first byte of the request) and the first byte of a negative response is always 7F hex:

Mobile Solar Container Systems , Foldable PV Panels

LZY's photovoltaic power plant is designed to maximize ease of operation. It not only transports the PV equipment, but can also be deployed on site. It is based

python

Even if you have setuptools 40.8.0 installed a package that explicitly declared setuptools as a dependency requires setuptools distribution to exist in the local directory.

docker

I had the same issue with docker client 24.0.2-rd and the client API version was 1.43 and the server version was 1.41. The same solution worked for me export

DOCKER_API_VERSION=1.41

How to make more than 40 security() calls?

The workaround is not to have more security() calls, but to be able to fetch many more values than 40, with those 40 security() calls, by using tuples. As demonstrated in my answer, 7
