[Low battery charge error , Volvo V40 Forums](#)

Hello everyone, I just bought my first car, a 2014 Volvo V40 T3, and a warning appears on the dashboard that says 'low battery charge.' The car is recently

Secondary Battery

My main battery just died, had it replaced with same, and car kept giving me Battery charging, so no stop start. When stop/start worked, it was for about 10 sec, and car would start, with

Battery issues

I've had both batteries replaced (with the correct models), done a 100 mile trip, overnight smart battery charge, charging voltage is fine, system messages cleared but I am still getting "low

Main Battery Replacement

Since that battery also supplies power to the ECU memory when the car is switched off, as well as powering the stop/start system , don't ignore it. Like the main battery, Volvo recommend

Battery Recycling for Businesses

Battery Recycling for Businesses Use the chart below to determine how to handle used batteries generated by your business. Batteries that are considered hazardous must be recycled or managed

Multiple Warning Lights/Error Messages/Battery deterioration

TBH I would look at a replacement battery on the back of that info - but can't you get one from where you bought it? I don't know what a compliance centre is but does the vehicle come with

New Battery

So I think the time has come to replace the main battery. Its the original Volvo 70ah EFB battery that was on the car from new in 2016.. The car starts fine but I keep getting the "Low Battery

Low battery charge message

The low battery charge message relates to the main battery. On vehicles with stop/start systems and intelligent alternators, the vehicle battery is designed to operate at around 80% SOC, to

Household Battery Recycling

Household battery recycling locations Lead-acid batteries, or "automotive type batteries," are banned from disposal. Consumers may bring lead-acid batteries to any Wisconsin retailer that sells these
