

Construction of uninterrupted power supply for communication base stations requires approval

Overview

An uninterruptible power supply permit is a formal approval issued by a local authority, typically the building or electrical department, that allows the installation or modification of a UPS system within a commercial facility.

Construction of uninterrupted power supply for communication base

National Electrical Safety Code

For the purpose of this rule, a wood structure with metal-reinforcing trusses installed at its base for strength purposes is not considered to be a metal-reinforced structure and therefore not required to
