

Design of photovoltaic panel box hoisting scheme

Overview

The invention discloses a simple photovoltaic panel hoisting device and a hoisting method thereof, wherein the device comprises a photovoltaic panel embedded groove plate and a support frame, the right end of the photovoltaic panel embedded groove plate.

Unique Concept: The Solar Platform
Geda Solarlift - One Device, Several Advantages
The GEDA Solarlift has particularly been designed for working with sensitive materials and offers a specific solar platform for a safe transport of expensive solar panels. The platform provides a specially developed plastic surface and an extra fixation possibility which can be adjusted as desired. The second transport variation is the collector pl See more on geda-arcingenioslaspalmas.es
