## Overview

---

A resilient distributed secondary control strategy is proposed for DC microgrids (MGs) with denial-of-service (DoS) attacks on communication channels to achieve accurate current sharing and voltage regulation.

### Event ID 10016, DistributedCOM

Updated to 1803 17134.1 without a problem but one error - Distributed COM event ID 10016. Experienced this event ID many times previously and have fixed by changing permissions in

### Distributed Secondary Control of DC Microgrids under Unreliable

This paper investigates the voltage restoration and optimal load sharing problem of direct-current (DC) microgrids with considering random switching topologies and communication delays.

### Distributed secondary control for DC microgrids using two-stage multi

To address this issue, in this paper, we propose a two-stage reinforcement learning secondary control method for DC microgrids, which can effectively suppress the bus voltage

### DistributedCOM Error. Solved

What u did by deleting all entries in the registry for GUID {1B562E86-B7AA-4131-BADC-B6F3A001407E} in the eventlog is it not the same as what Vaio 7 did by setting 0 to the dword to
