On April 24, 2023, DOE launched the Energy Savings Hub, a website that lists IRA clean energy tax credits and rebates and divides them by entity (e.g. homeowner, renter, vehicle owner, etc.).

DOE launches Energy Savings Hub

DOE launches Energy Savings Hub June 27, 2023
The U.S. Department of Energy (DOE) recently launched the Energy Savings Hub, an online, one-stop shop for American families

[Making clean energy investments more successful](#)

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and policies by governments and

[MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

Giving buildings an "MRI" to make them more energy-efficient and

Founded by a team from MIT, Lamarr.AI utilizes drones, thermal imaging, and AI to identify energy waste and structural issues in buildings and recommend retrofits.

Next-generation geothermal energy: Promise, progress, and challenges

Geothermal energy, a clean, continuous energy source accessible in many locations, has been slow to catch on. Nearly 2,000 years ago, the Romans made extensive use of geothermal

A new approach could fractionate crude oil using much less energy

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

MIT engineers create an energy-storing supercapacitor from ancient

MIT engineers created a carbon-cement supercapacitor that can store large amounts of energy. Made of just cement, water, and carbon black, the device could form the basis for

[Explained: Generative AI's environmental impact](#)

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

Department of Energy Savings Hub Launch

The U.S. Department of Energy launched the Energy Savings Hub to keep track of the latest tax credits on clean energy and energy-efficient products and upgrades available to you >>> Whether you're in

Energy Savings Hub , Better Buildings & Better Plants Initiative

This hub has a collection of resources that informs homeowners, renters, and drivers about available incentives to cut home energy costs, increase home resale value, and reduce

[DOE Launched Energy Savings Hub - Environmental and Energy](#)

DOE launched the Energy Savings Hub for homeowners, renters, and vehicle drivers to directly access information about clean energy and energy efficiency tax credits, rebates, incentives,

Study: Fusion energy could play a major role in the global response to

Investigators in the MIT Energy Initiative and the MIT Plasma Science and Fusion Center have found that - depending on its future cost and performance - fusion energy has the potential

How artificial intelligence can help

achieve a clean energy future

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

New facility to accelerate materials solutions for fusion energy

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron proton beam

Energy Savings Hub

DOE's new Energy Savings Hub is an online one-stop shop for American families and consumers to access the savings tools that President

Explore the DOE Energy Savings Hub

The US Department of Energy has launched its Energy Savings Hub, to help American consumers in the market for clean energy or energy-efficient products and upgrades keep track of

[DOE Launches Energy Savings Hub - Elements for](#)

Whether you're in the market to buy an electric vehicle, install solar panels, or upgrade your home insulation, the DOE's new Energy Savings Hub
