

House roof solar panels

House roof solar panels

[Creosote running down outside of pipe, inside of house](#)

The past few days, creosote is running down the outside of the pipe that is inside the house, between the ceiling and the stove. The exterior pipe looks fine. Also, this fall we had resealed

Solar Powered Roof Tiles

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your

[Heating a big old farm house, curious about options](#)

However, 4 kids later and we're now looking at a big old two-story farmhouse in the country. The original house was built in 1875 with a big addition in the 1920's making ~3600 square

[crawlspace whole-house dehumidifier vibration/noise](#)

I've installed a whole-house dehumidifier in my crawlspace. For various reasons (primarily drainage), I hung it from the floor joists above, using a simple platform made of 2x4s supporting a

[Stove recommendation for ICF house with 13-14' chimney](#)

Hello! This is my first post, but I've already learned a lot by reading through these forums. I'm building an ICF house on the Colorado Front Range, and I'm looking for a recommendation. The

[Secret to not smoking out house when starting your stove](#)

In the coldest of days if my stove has been off and the flue is ice cold, I'll give it some help by putting my propane torch up there for about 5-10 seconds. I know there's people who will

2009 House with Fireplace Insert

Our house was built in 2009 and it has a beautiful fireplace with an insert. We didn't do too many fires last winter (maybe 1) but this year are wanting to use it more.

Quadrafire Castile (2001) model smoke in house after Exhaust pipe

Ok first post but I have been a lurker here for the past year and found many of the post very helpful. I bought a house last fall with a Quadrafire Castile. I was having a problem with the

Two story house

The house is fairly well insulated with good windows. It runs fairly stable around 60 on second floor. I run first floor at around 65. this is with temps in the teens at night and twenties

Can hot embers come out of your pellet stove and burn your house down

As far as a fire in the house, as long as the stove is maintained right and installed properly, there is more chance that a bolt of lightning will hit your chimney and burn the house down

[How to route chimney in a cape-cod style house](#)

Hi all, I'm new to the forum, but I have heated with wood since I was little. We now have a house that doesn't have a chimney, and we bought an Englander (2200 sq ft model) wood stove from
