Major renewable source of energy is

What Are the Main Sources of Renewable Energy?

The main sources of renewable energy are solar, wind, hydropower, biomass, and geothermal. Together, these sources accounted for 32% of global electricity generation in 2024, a

Renewable energy

Summary Overview Mainstream technologies Emerging technologies Comparison of the theoretical and practical potentials of different renewable energy technologies Market and industry trends Policy Finance

Renewable energy (also called green energy) is energy made from renewable natural resources that are replenished on a human timescale. The most widely used renewable energy types are solar energy, wind power, and hydropower. Bioenergy and geothermal power are also significant in some countries. Renewable energy installations can be large or small and are suited for both urban and rural areas. Renewable energy is oft

What kernel does Manjaro use?

What kernel does Manjaro generally use? Does it use the latest kernel (6.15.2) or does it use LTS (6.12.33) or something else based on curation? I noticed the ISO said 612.

6.12 LTS Kernel Development

Then the major feature set should be complete to see what got changed and therefore needs adjustments from ZFS developers. You can keep an eye on the issue tracker: Issues .

Error mounting HDD: Wrong fs type, bad option, bad superblock

But in order to work efficiently, we shall also ask you to follow three major points. Provide context Simply signaling an issue is rarely enough to understand how it occurred.

Status of ARM Stable Updates: No Major Update Since March 2024?

As far as I can see, the last major ARM Stable update was in March 2024, which means it's been more than 7 months. Looking back at previous updates, this seems like quite a long time,

After a big update yesterday ssh no longer works although installed

Yesterday there was a major upgrade. I use manjaro sway. Before I did the upgrade yesterday the ssh server was working. Now although openssh is installed, when I do "sudo systemctl

Getting a "QXcbConnection: XCB error" everytime I try to open Aegisub

Every time I try to open Aegisub it doesn't open, no response. It's been like this for a few months. I tried different versions- pacman -S aegisub, and

a few other AUR packages. I tried pamac
