

Mounting height for ev charger

Overview

The NEC (National Electrical Code) mandates that chargers must be mounted at least 18 inches (450 mm) off the ground for indoor installations and 24 inches (600 mm) for outdoor setups to avoid potential damage from flooding or debris.

Mounting height for ev charger

EV Charger Height

It is recommended that your EV charger be mounted at least 750mm off the ground in order to minimise any risk of electrical shock or other hazards. Additionally,
