

New Energy Storage Laws and Regulations

New Energy Storage Laws and Regulations

[California legislation sets new safety standards for](#)

Earlier this autumn, California Governor Gavin Newsom enacted the fire safety-focused Senate Bill 283, which is poised to reshape the state's

[Solar PV, Solar Ready, Battery Energy Storage System](#)

The Building Energy Efficiency Standards (Energy Code) include requirements for solar photovoltaic (PV) systems, solar-ready design, battery energy storage

What is the Difference Between 'new object()' and 'new {}' in C#?

Note that if you declared it `var a = new { };` and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

California Battery Energy Storage Systems Legislation Update

In the wake of a catastrophic battery storage facility fire in Moss Landing in January that burned over half the batteries in a 300-megawatt (MW) installation in Monterey County, 2025 has

new operator

California Battery Energy Storage Update

To meet clean energy goals, California is advancing battery storage-but new legislation may reshape permitting and impose stricter safety

[Difference between 'new operator' and 'operator new'?](#)

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new expressions.

New site design and philosophy for Stack Overflow: Starting February

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

[California Battery Energy Storage Systems Legislation](#)

On November 13, 2025, Governor Newsom announced that the State has now built one-third of the energy storage capacity estimated to be needed by 2045 to

Governor Spanberger Signs Energy Storage Bill to Keep Costs Low

ACP celebrated Governor Spanberger's signing into law House Bill 895 and Senate Bill 448, a bipartisan measure to reduce energy price volatility, strengthen grid reliability, and accelerate

[California has a new law to prevent big grid battery fires](#)

California leaders see a safe, sustainable grid storage industry as crucial to reaching the state's long-term climate goals, because the battery

[California Solar Mandate For Installing Solar Panels in](#)

Under the California Solar Mandate, numerous new commercial projects, including retailers, offices, schools, apartment complexes, and medical

What is the 'new' keyword in JavaScript?

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-

oriented programming language. What is it?
What problems

Battery Storage in California Meets New Regulatory Hurdles: How

Given the importance of battery storage to grid resiliency and integration of renewable energy, the California Legislature may be open to changes in state law to make permitting energy

[How does the new operator work in JavaScript?](#)

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

[Is JavaScript's "new" keyword considered harmful?](#)

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

[AB 205 California: Key Energy Provisions](#)

and Rules

AB 205 updated California energy law with income-based electricity rates, utility debt relief, faster permitting, and stronger grid reliability standards.
