

New Zealand Solar Irrigation Pump Inverter

Overview

The ePumpNZ is a solar-powered water pump system built for New Zealand conditions. It's designed to move water from a source (like a bore, stream or tank) to where it's needed, even in remote areas where no mains power is available.

Solar React Pump

The React Solar Water Pump is an ingenious little pump built to provide years of trouble-free water pumping, avoiding the need for more expensive and time consuming options such as petrol pumps.

new operator

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new expressions.

javascript

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take {new(): T; }. You are right it is a type. It is the type of a class

What is the Difference Between 'new object()' and 'new {}' in C#?

Note that if you declared it var a = new { }; and var o = new object();, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

What is the 'new' keyword in JavaScript?

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems

[How does the new operator work in JavaScript?](#)

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this

object, pointing to the Function prototype
