### **New site design and philosophy for Stack Overflow: Starting February**

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

### [How does the new operator work in JavaScript?](#)

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype

### **Austrian PV: Storage Must Grow Fivefold in Six Years to Keep Energy**

In order to meet the 2030 target, Austria will need to install around 650MW of storage capacity each year over the next few years. While annual growth could slow to around 350MW by

## **Policies and plans to promote long duration energy storage and**

Installed Electricity Storage Capacity in Austria o  
Electricity storage technologies are playing an increasingly important role in the synchronisation of fluctuating generation with energy demand

### Unity: Conflict between new InputSystem and old EventSystem

You probably tried to import a new input system package for multiple input devices compatibility. These type of errors are due to conflict between old and new input system packages

## **When to use "new" and when not to, in C++?**

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

## **What is the 'new' keyword in JavaScript?**

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems

### Is JavaScript's "new" keyword considered harmful?

It is NOT 'bad' to use the new keyword. But if you

forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'
