

Research on household solar power generation issues

Research on household solar power generation issues

Teens, Social Media and Mental Health

Parents are more worried than teens about teen mental health. Both groups - especially parents - partly blame social media. But teens also see benefits.

Americans Broadly Disapprove of U.S. Military Action in Iran

About this research This Pew Research Center analysis examines Americans' views of the U.S. military action against Iran, which began in February 2026. Pew Research Center conducts

[What Drives Households to Install Solar as a Solution to](#)

Therefore, this chapter presents a systematic literature review of studies on households' intention to install solar PV systems to identify the gaps in the field of study.

Pew Research Center , Nonpartisan, nonadvocacy, public opinion

Pew Research Center is a nonpartisan, nonadvocacy fact tank that informs the public about the issues, attitudes and trends shaping the world.

This research article explores the essence, functions, and process of research, with a specific focus on scientific research. In addition, it delves into the characteristics of scientific research

(PDF) What is research?

Research has to have an element of discovering something new, of creating knowledge. While a literature search is one important part of a research project, it isn't research in and of itself.

Teens, Social Media and Technology 2024

Pew Research Center conducted this study to better understand teens' use of digital devices, social media and other online platforms. The Center conducted an online survey of 1,391

The energy injustice of household solar energy: A systematic review of

Power generation from grid-connected residential photovoltaic (PV) systems has been widely recognized worldwide as an integral component in the energy transition. However, concerns
