Renewable energy in Russia

OverviewCurrent statusHistoryHydropowerGeothermal energySolar energyWind energyTidal energy

In late 2009, Dmitry Medvedev made an ambitious declaration, expressing his intent to reduce Russia's energy consumption by 40% by the year 2020. However, several factors were impeding progress towards this goal. These obstacles included insufficient investments, economic instability, limited public demand, and the presence of low tariffs on heat and electricity. Additionally, the prevalence of subsidies for natu
