

Tesla New Energy Storage Plant

Overview

Located in Barrio Logan, the Peregrine Energy Storage Project cost \$106 million and was developed by clean energy firm Arevon. It uses Tesla's Megapack technology and is designed to store enough electricity to power 200,000 homes for two hours during peak demand periods each day.

LG Energy Solution (LGES) will manufacture lithium iron phosphate (LFP) energy storage system (ESS) batteries for Tesla at

Moss Landing Power Plant

OverviewHistoryConnections to the California power gridNatural Gas power generationBattery energy storage facilities

The Moss Landing Power Plant is a natural gas powered electricity generation plant as well as a battery energy storage facility, located in Moss Landing, California, United States, at the midpoint of Monterey Bay. As of 2025 , the site's battery storage facility is one of the largest in the world, at 630 MW (power) and 2,500 MWh (energy). The energy storage facility stores excess electricity (usually lower-price solar electricity du
