

# The factory built its own solar energy storage

## Overview

---

Initial public mention of the gigafactory concept was made in November 2013, although Tesla's internal plans predated that; Tesla had investigated almost 100 sites. In July 2014, it was announced that had reached a basic agreement with Tesla to invest in a factory, estimated to cost \$5 billion. The northern Nevada site and plans were announced with state officials on September 4, 2014. Panasonic agreed t.
