User Documentation

Learn how to use User Marketing Automation software. Find step-by-step instructions on every aspect of the app.

git config

Considering what @Robert said, I tried to play around with the config command and it seems that there is a direct way to know both the name and email. To know the username, type: `git config user.name`

User

User is a marketing automation platform that helps companies streamline processes and grow their business faster and transform behavior into personalized experiences, without the dev time.

[How do I get the current user's username in Bash?](#)

If you want to get the fullname and not the user id, you can get from `/etc/passwd` and get your line with `grep`; or simpler with `id -P` which get the line for the current user; and, in all case, something like that:

What is the alternative for ~ (user's home directory) on Windows

Product Overview from User

User Tracking See who opens, clicks and unsubscribes from your emails. All this information is visible in user-profiles and can be used as a trigger for further automations.

Introduction (V2) , User REST API Docs

The User API allows you to: Automate processes
Create custom integrations with our application
Get data from our app We're still adding more functions, if you have any suggestions - do not hesitate to

What is the alternative for ~ (user's home directory) on Windows command prompt? Asked 14 years, 2 months ago Modified 1 year, 2 months ago Viewed 521k times

[Home Energy Storage Guide , How to Choose and](#)

A complete guide to home energy storage: learn how to choose the right lithium battery system, installation steps, safety tips, and how to maximize

[What is the purpose of "pip install --user"?](#)

The --user option modifies all pip commands that accept it to see/operate on the user install folder, so if you use pip list --user it will only show you packages installed with pip install --user.

LiFePO4 Lithium Battery Storage for Home & Commercial Solar , GSL
