

What are the common phenomena of photovoltaic panels

Overview

The light from the Sun, made up of packets of energy called photons, falls onto a solar panel and creates an electric current through a process called the photovoltaic effect.

What are the common phenomena of photovoltaic panels

[Solar panel , Definition & Facts , Britannica](#)

The addition of junction-forming layers, however, induces a built-in electric field that produces the photovoltaic effect. In effect,

[Apply to college with Common App , Your future starts here](#)
