

# What is not included in the base station power system

## Overview

---

The towers and white antennas seen outdoors are not the full base station. A complete mobile base station typically includes: BTS/NodeB/eNodeB/gNodeB (radio transceivers) BBU (baseband unit) and RRU (remote radio unit) Power system and backup battery system.

### To Balun or not to Balun

Do not put baluns in single element dipoles that would be used for anything other than the frequency they're cut for or the appropriate odd harmonic. Multiple-element "fan" dipoles are

### missing lotw confirmations

Problem is that some 800 lotw confirmations (of

## Cellular Base Stations

Elsewhere in the base station are supporting components such as the base station controller, which is like a computer that monitors and controls various functions so that a person does not have to be
